EXPERIENCE

Web Developer
HyQsoft Technologies   July 2019 - July 2021, Hyderabad, India

My primary role was to develop/implement web-based applications and was also involved in deployment, integration and maintenance of core business applications. I have been a part of multiple projects with multiple teams. Some of the projects I worked on are:

Istanbul Furniture
- Content Management System and Invoice service for furniture.
- Modules: Admin, Salesperson, Delivery manager and employees.
- Worked in an agile environment using JIRA.
- Developed a furniture e-commerce website from scratch.

FMS Welfare Trust
- Responsive Web Application providing information about the organization, included payment gateway services for donations.
- Admin module to upload images and videos.
- Worked in an agile environment using JIRA.

CERTIFICATIONS

Responsive Web Design Certification (300 hours)
